ear Client,

With this issue, we are initiating the use of a new grading system on most of our new U.S. inventory.

QUANTITATIVE GRADING SYSTEM

I feel that this system provides a more precise method of helping the buyer ascertain the exact condition of those coins in which he has an interest. It is basically patterned after Dr. Sheldon's quantitative scale which he developed to grade large cents. The system has been almost universally adopted in recent years and is now used to describe all denominations and series from Colonials to Pioneer Gold. The numbers used in this grading system are as follows:

Poor1
Fair2
About good3
Good
Very good8-10
Fine
Very Fine20-25-30-35
Extremely Fine40-45
About Uncirculated50-55
Uncirculated60-65-70

As an example of how this works, a coin which just meets the minimum requirements for Wery Fine-would be graded Very Fine-20. A coin which would previously be graded as Very Fine to Extremely Fine would be a deep fine-25. A coin which would previously be graded as Very Fine-30 white a coin that falls just short of the Extremely Fine grade would be graded a Very Fine-35. In some cases, a plus sign (example: VF-FF 35+) is used to denote that a coin is very close to the next highest numerical grade.

This grading system has been used mainly on U.S. coins only. Conventional grading has been used for the most part on foreign coins and currency.

I hope that you will find the system easy to use and I would certainly appreciate any comments you may have.

We caution that not all dealers' grading, numerical or otherwise, is the same as ours. Many buyers have the mistaken impression that any dealer that grades numerically, grades correctly. If our MS-80 is priced higher (or lower for that matter) than another dealer's 'oin we still suggest some comparison shopping to determine which is the best value. We think our grading is the most conservative and consistent in the industry...but we don't expect you to take our word for that. Compare our coins with those advertised elsewhere and see for yourself.

NEW ENGLAND RARE COIN AUCTIONS

By the time you receive this catalog, our New England Numismatic Association Conference auction (November 7-8, Copley Plaza Blotel) will have already taken place. All early indications point to a most successful event, and we anticipate proceeds of close to half a million dollars.

For those who participated, we thank you. We are planning to run another major sale in Boston, March 25-27, 1976, and are now accepting consignments for this star-spangled bi-contemial event. Please call or write if you desire more information.

Leroy J. Bellisario has accepted the position of head of New England Rare Coin Auctions He will be developing future auctions in connection with major numismatic events, and providing customers with the opportunity of exposing their collections to an ever increasing market of rare coin and currency buyers. Lee feels that the interaction of buyers and sellers in an unreserved bid auction is where the true value of many rare coins and currency will be established. Here, at New England Rare Coin Galleries, we can offer the buyer and seller the main ingredients of any economic transaction; a conducive environment with knowledge of the market provided for all parties involved. He is a graduate of Millersville State College, receiving his M.E.D. from the University of Delaware. As a member of the ANA and the SPMCA, he was active in both the numismatic and syngraphic market. With the establishment of a coin business in 1972, Lee began to expand his interest and establish foundations in the industry which has brought his many talents to our attention. Coupled with the New England Rare Coin Auction staff Lee will be aiding customers in an ever-expanding market. Presently plans are underway for an auction on March 26-27 in Boston. You may contact Lee at (617) 879-7711 or toll-free (800) 225-3859 for further information.

Because of our recont growth and the excellent market conditions, we have now installed an IBM System 32 in order to better serve you. Claire comes to us from Stow-Moodward Industries where she had contact with numerous types of data processing systems. She has attended courses and seminars conducted by IBM in addition to six years "hands on" experience. We feel conflicient that she will ensure a smooth transition.

I hope that with the addition of these fine new staff members, we will be able to serve you even better than we have in the past. It has been your continued trust and patronage that has allowed us to expand our staff, and for this, we sincerely thank you.

Best regards,

Jih Halperin

NUMISMATIC BOOKS

New England Rare Guin Galleries is offering for sale a selection of nunismatic books. We have always encouraged our clients to inform themselves as much as possible about the coins they are buying. This is not entirely without motive. The fact is that most of our customers are very knowledgeable about the coins they buy from us. We feel that this is because it is the most knowledgeable buyers that are best able to recognize the consistent quality and value that we deliver. So there is a somewhat selfish reason that we advise: Thuy the book before you buy the coin." Often the book turns out to be the biggest bargain

SELECTIO

We actually have greater difficulty in purchasing quality coins than we do in selling them. Fortunately, our sources in this regard are nearly unsurpassable. Many of America's leading dealers and collectors regularly call on us with rare and desirable numinatic properties. Our high volume, low margin of profit business allows us to pay cornectifies and often proof breaking mices for pare coins.

Members of our staff attend virtually every major coin convention and examine several million dollars worth of coins each week so that we may bring our customers the very best values from other dealers! inventories

As a point of interest, we do not hold back portions of our inventory and keep the best investments for ourselves as many dealers do since we feel that our valued customers deserve to profit from this incredible market. In fact, all of our new purchases are immediately available for sale as soon as we catalog and price them.

Our inventory, which consists of approximately two million dollars worth of numismatic United States coins alone, is one of the largest and most comprehensive in the nation. Our business is to meet our clients' needs and we think we do an excellent job of it.

ALTERNATE CHOICES

We attempt to price and grade all our coins to be outstanding values, so naturally, choice, desirable coins that are priced to sell (and most of the coins which we offer for sale fit into that category) cannot be expected to remain unsold for long.

Invariably, when we publish our advertisements and catalogs and price lists, we will get unlittle cordors — often as many as 10 or 15 orders for the same con. Since nearly all items are one or two of a kind, we often must disappoint our customers with "sold out" letters and refund checks. This is certainly regretable, but the alternative of pricing our coins higher to avoid multiple orders doesn't appeal to us, nor would we expect it to appeal to our customers.

Therefore, all we can advise is to please order as soon as you can and list second choices if possible. Naturally, we will never use your second choice listing unless we are sold out of your first choice.

THE 1866 "NO MOTTO" DOLLAR = ATTRACTIVELY FONED PROOF

This very colo was called in Stack's "perhaps the rarest U.S. silver coin.

This very cold was owned to a virtual "Who's Who" in American Numismatic history (F.C.C. Boyd, Colonel F.H.D. Green, King Farouk, Samuel Wolfson, Charles Jay and others).

This coun is same indept in that there are two specimens known, but one was stolen carrive in deaders; and the whereabouts of it are unknown. The fablicus Louis Eliasberg Entirelies, considered the only "complete" U.S. coin collection, is MISSING an 1866 No. World Daily Complete the contraction of the contraction of

There are 15 1804 dollars known today; there is only one 1866 No Motto dollar known today.

There are 5 1913 Liberty nuckels known today, there is only one 1866 No Motto dollar known today.

There are a handful of t.S. coins which have realized over \$100,000. Some have realized over \$200,000. There are two which are currently being offered at \$300,000. None of them approach the rartie of the 1806 No Motto dollar.

We at New England Rare Coin Galleries, feel this is the most underpriced United States

When this coin was last offered at public auction in the Winner Delp Sale, it was described as follows by Stack', the cataloguer of the sale:

The country of the co

This is the function for an instant parties of the same only and the postures as well known, as to establish the means an electronic parties of the parties

The second of the little of the second of the little of the littl

It is with understood by pulli and to mean that we upon offer this wein at Public washing to the outless of extent function."

The coin was purchased in that sale by one of America's leading dealers for \$32,000. Some of the other rarities in that sale included a 1795 Flowing Bair Dollar, Choice BL, fully P-L for \$3,500 (present value \$25,000+), an 1884 Trade Dollar, cleaned Proof for \$17,000 (present value of about \$50,000), an 1808 \$2½ Gold posce EF for \$5,000 (present value)

about \$15,000 \ a Proof 1848 CML \$2\frac{1}{2}\$ for \$7.750 \ \text{currently} advertised at \$85.000 \ a General 1880 Coiled Hair Stella for \$35.000 \ (present value \$125,000 \ to \$150,000) \, an 1856-0 \$20 \ Coil Eff for \$8,500 \ (present value \$40,000+) and many others of approximately the same appreciation. These examples were selectively cited, but offer a realistic representation of the market at that time.

Refer to page 150 of the WUNDE MOON where this coin is referred to as a transitional pattern. Actually this is incorrect, for it is of the same design as the preceeding issues rather than that of the succeeding issues. (To illustrate: An 1865 With Motto Dollar would be an example of a pattern issue. The 1866 No Motto Dollar falls into the same category as a 1913 Liberty Nickel or an 1804 Silver Dollar,)

Stack's compared the present coin's value to that of an 1804 Silver Dollar (currently valued in the \$200,000 range.) We feel we have priced the coin conservatively in order to sell it quickly. Here is a once—in-a-lifetime opportunity to acquire one of America's greatest profites.

* * * THE FABULOUS 1885 TRADE DOLLAR * * *

This splendid specimen was last sold publicly in the Baldenholder Sale (Stack R) or 1955. It is a glittering Choice Proof example with beautiful natural tentor. One of only five specimens struck.

In the Baldenhoffer sale, our coin was described as follows:

THE EXCRESIVELY RARE 1885 TRADE DOLLAR

The French Claim of the Arms (Collect Property and Collect Property) and the Arms (Collect Pro

Twe struck is now the officially accepted figure, and all five specimens (30 knowler, three of these are permanently impounded in fracus major scollections (MilasSerg).

Amon Curter and Norweb). The other specimen, last sold in 1965 (Newlit sale - Stack's) was impaired. This is now the only Choice, COLLECTIBE specimen of this date.

The 1880 Tarke Double is man of America - greatest relaties that is currently for sale. We note the recens makes it an 1884 30 two Pollar (15 specimens known) and a 1907 MCMFII Extremely High Setus (12-14 specimens known) both for amounts reportedly in excess of \$200,000. The 1885 made Dollar is more than twice as rare as either of these.

The possible classestine nature of such coins as the 1884 and 1885 Trade Bollars, 1830-0 Half bollar, 1918 liberty nickel, 1884-8 dine, 1804 silver dollar, and other likewise famous rarties has in many ways, contributed to their fame, romance and value, thas always been the dream of every collector to own at least one of these rartities, and yet there has always been some small fear that someday in the future these may be determined to be illegal issues and be confiscated by the government. While we cam't see any reason why this would ever happen, what purpose it would serve, or any real evidence that any of these coins could be considered illegal to own, we were happy to learn that this will never happen to the present coin. The 1884 and 1885 Trade Dollars were legally issued and authorized by Unrowse.

The following article has been reprinted in full from the April, 1912 issue of the $\underline{\text{NUMISMATIST}}$:

"SADE DOLLARS OF I 84 www. 1885

The 1885 Trade Dollar offered here is in the finest possible condition. It is equal or superior to all other known specimens. The only other collectible specimen was defisively cleaned and has severe hairlines. This specimen is a Choice, beautifully toned Prief - absolutely an unimprovable coin! The dealers we showed it to considered it to be the finest known.

The 1885 Trade Dollar is one of the most infrequently offered of all U.S. coins. No 1885 Trade Dollar has been offered for sale since 1965 (Ewalt). No Choice one since 1955 whom this one was last sold.

Meanthile, four extremely high relief double eagles have been sold in the past few sers. 1804 Silver Bollars are offered for sale virtually every year. At least three 1911 Liberty Nickels have tracked hands within the past decade. Yet, to our knowledge, only two 1865 Trace Bollars had been sold from 1942 until we purcaised this one in August of 1974!

The 1885 Track Dollar is one of the most famous, romantic, and well-established of diluss. coin rarities. It is NOT a pattern issue or a recently-promoted "rarity". It is unsideputedly one of the rarest collectible regular issue silver coins.

It is almost impossible to say what this fabulous coin will bring in the future, but it is a virtual certainty that its new owner will realize a substantial profit should be ever decide to sell the coin. This has been the case with nearly all great numismatic rarities. Purthermore, there is the tremendous satisfaction (and often fame) that comes from conversing of a classic rarity.

We proudly offer this Choice, beautifully toned specimen for sale.

We can recorder with the agreet 1967 ANA convention in Minum when Aubrey Beebe paid \$66,000 too his 1997 takened anchor. This was considered a "high" price at that time. But since then, our brunds at lowers is that the considered a "high" price at that time. But since then, our brunds at lowers is that the consistent paid over \$500,000 for fall MINTERST in another of the 5 known specifiers. That some coin is now valued at \$500,000 for fall paid to the constantly there have been now inconstanted that could have realized a 500% return in less that of yours. More importantly, this is not an isolated down. Virtually every major U.S. writy has experienced approximately the course return of constants over that time period.

Admitted, it is our superer note to be able to smeday requiribase coins from the wildesters, unsectors or demires that buy then from us. One of our best sources of rare close is an fine customers themselves. The two rarritus listed in this issue are no exception. Men they are sold again (we hope it will be to used) we have no doubt that the owner will realize a handsome, perhaps even a stagering profit?

If you are in the fortunate position of having money or livest, we hope you will consider numerically runties; reven scurvings!) so we can ruke a believer out of you!

THE PURPOSE OF THIS MESSAGE IS TO TELL YOU OF THE VERY REAL POSSIBILITY OF MAKING HUGE PROFITS IN RARE COIN INVESTMENTS, AND EXACTLY WHAT YOU CAN DO ABOUT IT.

Just like the heading says, there is a very real possibility you can make huge profits in rare coin investment. The developments of the past few months point strongly toward the dawn of a new market, a market with quality as a focal point. As we at New England Rare Coin Galleries have always emphasized quality, the investors who have listened to us in the past are in an enviable position. But it is not too late; it is only the beginning. The scarcity of quality coins, the desirability of quality coins, the easy resalability of quality coins - these factors are by themselves an assurance of a sound investment, However, there is more - much more.

First of all, the economy is rebounding. The people who think a strong upturn will not occur till the spring of 1976 are considered dour pessimists. A strong economy will belp the coin business, of course, but the coin market is already flexing its muscles in

most areas.

Secondly, there is a probability that large sums of money are ready to be put into the coin market. These large sums could turn prices of rare coins into astronomical figures. There just aren't that many quality coins around. Where will these sums come from? Several mutual funds have been proposed (modified to meet S.E.C. regulations, of course) that could provide tremendous purchasing power. In addition, there are several collections being formed today which could virtually dry up the availability of many scarce issues. There is also the possibility of the "noveau rich" in oil, coal and other energy related industries coming into the market. These are not pipe dreams. It has been estimated by one economist that if the amount of money traded in ONE DAY in the stock market were put into coins, the prices of all issues would increase an average of FIVE FOLD!

Thirdly, and importantly, there are the "insider's" feeling about the market. As professionals, we can gauge the strength of the market as no outside observer can. In the past two months, we have sold more expensive coins (over \$5,000) than in the six months previous to that. Even in a billion dollar industry, a sale of this magnitude is significant - people with this kind of money to spend have a REASON for putting it into the coin market. We have also had several serious inquiries concerning the 1885 Trade Dollar we own. Anyone who can conclude that the coin market is weak from such overwhelming contrary evidence should apply for membership in the flat earth society. It is important to remember one cold hard fact, however. Even WITHOUT the outside

forces listed above helping the market along, coins were the NUMBER ONE investment medium

in both 1973 and 1974. Period.

Where do you go to invest your money in rare coins? As we are paying for this ad, we are of course going to recommend New England Rare Coin Galleries. But is it really

important WHERE you go to purchase rare coins? You bet it is!

We recently went to look at a collection assembled two years ago by a woman whose intent had been to build a strong investment portfolio. The issues she chose were wise and sound - rare colonial coins, nice type coins and gold coins of top quality, (or so the inventory list said). Even though we recommend holding coins for a minimum of three years, the issues she had chosen had increased so dramatically that we felt we could still pay her a nice profit. Instead, our offer only came to about 40% of her cost! The "uncirculated" coins were in many cases re-colored and artificially treated coins which were only worth a fraction of what she had paid. And when the coins were accurately graded, the prices weren't picked from numismatic publications but perhaps at random from the phone book. It seems we were the second dealer who had looked at the collection, and the first had conveyed the same bad news. One coin in the collection stands out. She had purchased a Proof Quarter Eagle for \$3,200. This was a "good deal", she was told, because New England Rare Coin Galleries advertised them at \$3,500. However, the fact that her coin was covered with hairlines, digs and scratches WASN'T mentioned. Both the first dealer and the second (us) offered \$400 for the coin! The collector who purchased our 'more expensive" coin has a top quality GEM and considers it the highlight of his collection. When we say to consider quality when you consider price we aren't just paying lip service to a tired cliche'. Quality is of the UTMOST IMPORTANCE when buying rare coins. At New England Rare Coin Galleries we pride ourselves on delivering the best value for the dollar spent. Our "high" prices always pay off for YOU in the end.

When you order an investment package of rare coins from New England Rare Coin Galleries.

here is what happens.

First of all, each is accurately graded personally by company president, Jim Halperin. Secondly, the coin is priced, fairly and competitively, but with the accurate grade taken fully into account. A fortrain treaty sale can also be arranged where we will sell the coins for him for a small commission. Or, if he prefers, we will purchase the coins butright for cash. Daying or selling, the customer is always treated fairly at New England Mare Coin Galleries, and we strive to give him exactly what he wants.

The services New England Rare Coin Galleries offers are many, as complete as possible. and we are one of the few rare coin companies which offers coin investments applicable to the Keogh Act, which provides our customers with a sizable tax advantage. characteristics, color, strike, and surfaces - characteristics which can only be spotted by an experienced student of numismatics. Many of our investors have ordered from us for years, and have shown excellent to

amazing profits. We value these customers greatly, and we are happy to say many have told us we are couldly valued by them for our counseling and for the high quality and value in rare coins that they have received. The world of numismatic investment awaits you, and
